## 2004 NDM Collective Auction – Utah & Wyoming Bid Sheet

I hereby submit this bid for purchase of truckloads of non-fat dry milk (NDM) surplus stocks from the Departments of Agriculture in the states of Utah and Wyoming, (Montana on separate bid sheet). Utah's lots are labeled with UT and Wyoming's lots are labeled with WY. Utah payment(s) will be made to feed dealers directly (various locations) and Wyoming payment(s) will be made by certified check to the department. Payments must be made before receipt of NDM and may need to be made within 30 days of bid acceptance.

I have met the requirements for qualification by submitting a CCC-334 form to USDA. The CCC-334 states the program rules and I agree to follow all rules established by USDA.

The truckloads are 750 bags of NDM, net weight 55 pounds per bag, for a total of 41,250 pounds net (20.63 US tons). Freight will be paid by USDA. All truck orders must be sent through the state which is allocated the milk and the orders must be processed and sent to each state by **DECEMBER 27, 2004**.

In addition to my bid amount, I agree to pay \$275 per truckload to USDA for denaturing costs. This fee will be billed by and paid to USDA. I bid the following amount (truckloads = 20.63 US tons):
